BEYOND THE BEACH ~ BAJA LUXPLORATION
AUTHENTIC EXPERIENCES IN BAJA

BEYOND THE BEACH ~ **BAJA LUXPLORATION**

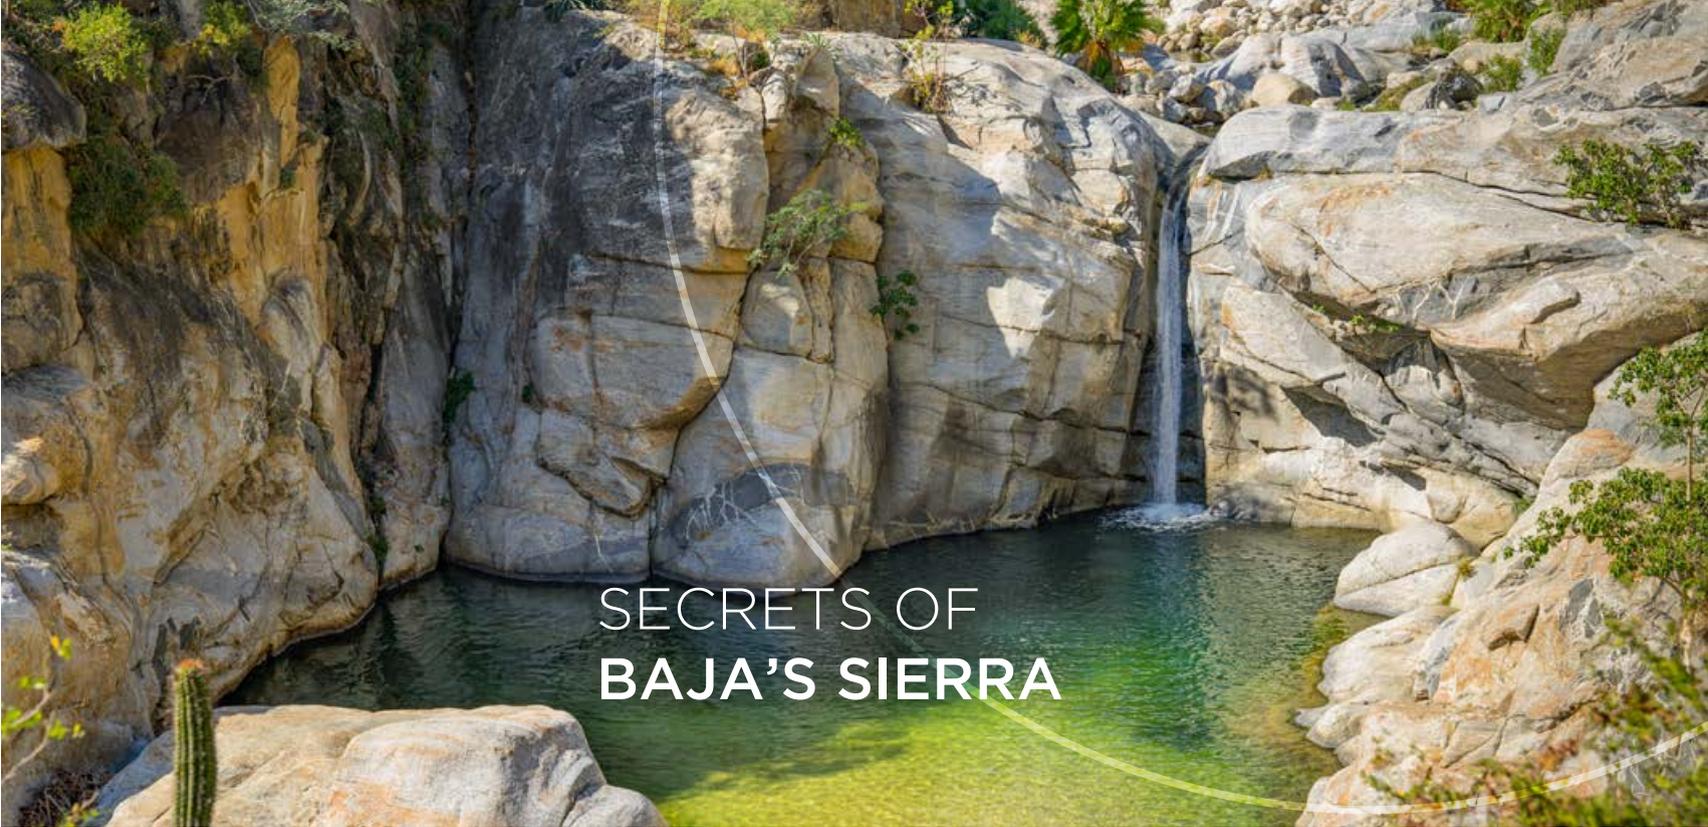

From marine life to mountain trails, this curated collection of inherently spontaneous experiences will reveal the magic of Baja's diverse land, wildlife and people.

Our partners are locals - naturalists, adventurers, farmers and artisans - and their insider knowledge will delight with personal narratives and expertise. These itineraries are to inspire exploration beyond our gates and can be customized to your tastes, all with our signature style of luxurious comfort.

SUNRISE STAND UP PADDLE BOARD (SUP)

Start the day with a sunrise standup paddle board at Cabo's iconic Land's End. This final point of the Baja Peninsula is the place of postcards where dramatic rock formations jut out of the sapphire sea. The natural Arch "El Arco" frames the meeting of the turbulent Pacific Ocean and the tranquil Sea of Cortez. Schools of fish scamper and sea lions splash as you glide along the cliffs to an intimate strip of sand that straddles the two bodies of water. Lay out a brunch picnic or return to Don Manuel's pop-up breakfast buffet

SECRETS OF BAJA'S SIERRA

The backroads of the Sierra de la Laguna mountains are Baja's best kept secret so let's keep this between us. Outside the tiny town of Santiago lies an enchanted wonderland, lush like a jungle, but with the flora and fauna of a desert. It's a fairytale landscape unlike anywhere you've seen. Our 4x4 jeeps will chauffeur us to discreet trailheads where we'll hike around granite boulders and oversized cacti to discover oases of hidden waterfalls, swimming holes and hot springs. After a morning of excursions, we'll recharge at the rustic Rancho El Refugio ecological reserve where local legend, Doña Luz, will demonstrate her hand-slapping, tortilla-making technique before indulging us with endless quesadillas. This is traditional Baja hospitality at its best.

BUCKET LIST: SWIM WITH WHALE SHARKS

Imagine yourself on a panga motorboat racing into the horizon. The quaint town of La Paz fades in the distance and you enter the calm, protected waters of the bay. This is where you'll find them...

The boat suddenly idles and you stare at an approaching shadow in the water that grows larger and larger. Seconds later, you're face-to-face with the gentle giant itself, the whale shark. Growing up to 40-feet in length and with mouths up to five-feet wide The world's largest fish are filter-feeders after all, completely harmless to humans. You'll return to the resort early enough to recount the momentous experience over a poolside margarita.

Best Season : October - May

EXPLORE **ESPIRITU SANTO** ISLAND

The Espiritu Santo Island and the surrounding archipelago is so distinct and diverse that it is often referred to as “The Galapagos of North America.” You will immediately see why as you explore this UNESCO-protected biosphere reserve by private yacht or panga. Savor fresh ceviche and guacamole while manta rays skim across the water’s surface and frigatebirds circle above. And don’t miss the opportunity to snorkel with playful sea lions. On the return, sip champagne as the sun sets at Balandra Bay with sailboats and paddle boarders silhouetted against the tangerine skies.

WHALE SHARKS + ESPIRITU SANTO ISLAND.

Enjoy two experiences in one.

BAJA SUR'S SURFING PLAYGROUND

With warm waters, consistent waves, and a variety of breaks and swells, Baja Sur's dozens of beaches, bays, coves, and cliffs are a surfer's playground paradise. Whether learning to "pop up" in a beginner lesson at the sandy-bottomed beach break of Los Cerritos or practicing cutbacks on the speedy, right, reef break of Zippers, our local pros will tailor a trip to your level of expertise.

THE “OCEAN MIRACLE” OF **CABO PULMO MARINE PARK**

Ocean explorer Jacques Cousteau once famously proclaimed Baja’s Sea of Cortez to be “the world’s aquarium.” There’s no better place to validate that description than the UNESCO protected Cabo Pulmo Marine Park. Heralded as a marine conservation success story, its living coral reefs are teeming with species of all shapes, sizes and colors. From swarming schools of yellow pork fish to a sun bathing colony of sea lions, the diversity of marine life will dazzle from above and below its turquoise waters. Our bilingual naturalists will lead you on snorkel and stand up paddle board excursions in the reserve’s bays and coves.

Best Season: March to November
